

**ALLSCOPE
SERVICES, LLC**

CAPABILITY STATEMENT

COMPANY OVERVIEW

Allscope Services, LLC delivers wastewater infrastructure, specialty trade, and facility support services to federal, state, and municipal clients. As a minority woman-owned small business, Allscope Services, LLC specializes in lift station systems, pumps, valves, control panels, and underground utilities. Projects are executed with responsive service, safety-focused performance, and dependable workmanship. Allscope Services, LLC builds lasting partnerships through consistent results and accountable leadership.

CAPABILITIES

Allscope Services, LLC provides comprehensive wastewater infrastructure and facility support services tailored to government operations. Expertise includes sewer and storm lift station services, pump and valve repair and installation, blower services, control panel repair excluding MCC and SCADA systems, and underground utility work. Preventative maintenance programs help extend asset life cycles while reducing unplanned downtime. Facility services also include grease trap pump outs, baler and compactor repair, and groundskeeping to maintain safe, compliant sites. Experienced field teams deliver responsive execution, technical precision, and scalable support across diverse infrastructure environments.
